

FACADE INSULATION

INSULATION OF VENTILATION HOLES WITH ZEUS®

- Soundproof insulation value $D_{n2}W = 54$ dB (certified)
- Thermal conductivity of the EPS casing $\lambda = 0.031$ W/mK at 10°C
- Thermal conductivity of the soundproofing material made of melamine resin $\lambda = 0.035$ W/mK at 10°C

INSULATION OF VENTILATION HOLES WITH SMART® 160

- Soundproof insulation value $D_{n2}W = 43$ dB (certified)
- Thermal conductivity of the EPS casing $\lambda = 0.031$ W/mK at 10°C
- Thermal conductivity of the soundproofing material made of melamine resin $\lambda = 0.035$ W/mK at 10°C
